Madison High School celebrates students and scores!

Madison, IN: The Madison Consolidated High School administrative team hit the road to visit with several students and their families last Tuesday to celebrate student AP Exam Score success. MCHS had 9 students who scored a 5 on their AP exam this year. Students and their families were honored with a surprise visit from Principal Michael Gasaway, Assistant Principals Dan Grill and Jill Deputy, and Guidance Counselor Lori Slygh who delivered a **HIGH FIVE** yard sign to celebrate their success. Overall, MCHS had 129 students score a 3, 4, or 5 on their AP Exams.

[What does an AP Exam Score Mean?](#) As defined online at CollegeBoard.org, a student's AP score indicates a measure of their achievement in college-level AP courses. This score will be used by colleges and universities to determine if they will grant credit for classes completed while in high school. If granted, this allows the student advance placement from an equivalent, entry-level course to the next course in the succession.

The score is a weighted combination of the multiple-choice and written response sections. The scale ranges from 5 to 1 and are defined as follows: 5 = extremely well qualified, 4 = well qualified, 3 = qualified, 2 = possibly qualified, 1= no recommendation. "Qualified" indicates a student has proven they are capable of doing the necessary work of a college-level introductory course in a particular subject.

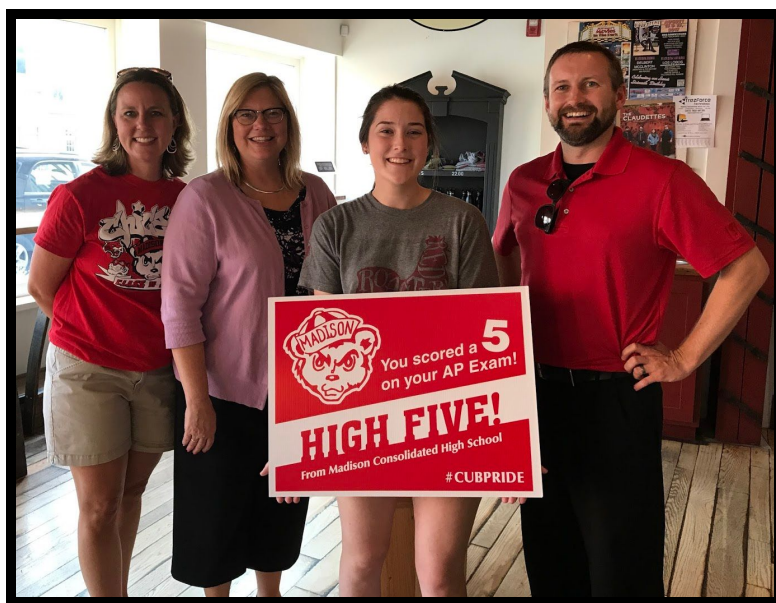

Congratulations to all the students as well as their teachers and parents who work to help our students succeed! Below are the names of the nine students scoring a 5. Our team was able to catch seven of the nine students for a photo, either at home or at work to celebrate their achievement!

Isaac Boone (Fr.)	World History
Regin Dean (So.)	Psychology
Catherine Fisher (Sr.)	Studio Art 2-D Design
Sophia Hall (So.)	U.S. History
Olivia Kalish (Sr.)	Studio Art 2-D Design
