

## Medical Home-bound/Temporary Disability

All students with injuries and temporary or chronic illnesses that preclude their attendance in school, including students who are not eligible for special education and related services, must be provided with instruction.

Before instruction for a student unable to attend school can begin, the parent must provide the school corporation with a written statement from a physician that states the student has a temporary illness or injury that will require the student's absence from school for a minimum of twenty (20) consecutive instructional days.

Contact the building principal or the Office of Special Education and Student Services (812)274-8231.
